

Crusoe of the Amazon

Feature film. Young smuggler Crusoe crashes the airplane from his dad's Chinese NGO in the middle of the Amazon. He survives on his own until he meets the beautiful native girl Friday, and together they face wild animals, cannibals, and smugglers who want their cargo back. When everybody gives up on finding him, his American mother comes to Brazil to join her ex-husband in the desperate rescue. But how to find him in the vast green ocean that is the largest forest in the world?

ADAPTATION FROM 1719 TO 2020

The novel *Crusoe* was released in 1719 and became one of the greatest successes of English language literature, about an isolated castaway on an island. Transported to 2020, for the first time the classic story will be adapted with young Robbie Crusoe stranded in the middle of a vast green ocean, the Amazonian Forest, as isolated as in the original version. It is interesting to point out that even in the original version Brazil is very important for the journey of the main character.

AN IMPORTANT FILM FOR THE AMAZON AND ITS NATIVE PEOPLE AND ENTITIES.

The whole world is increasingly concerned with the preservation of the Amazon Forest. But it is never as straightforward as it is in 2020 when the largest investment funds demonstrate they are against the deforestation in Brazil. The film *Crusoe of the Amazon* has the potential to captivate the imagination of a large audience around the world as it will be recorded in real locations in the Brazilian forest, with the participation of local groups. This family movie has the mission to entertain, but also to bring awareness to the problems faced by indigenous entities and groups that defend the Amazon for all of us.
